# CASE STUDY OVERVIEW

## PROJECT SCOPE

The owner of this charming period cottage needed to replace original timber sash windows that had deteriorated, and which were cold, drafty and lacking in security. Authenticity and maintaining the original looks of the cottage were of paramount importance.

## PRODUCT SPECIFIED & INSTALLED

the owners initially focused on using new timber replacements. However, after extensive research into styles, materials and manufacturers, they found Roseview Windows based locally. After a thorough design process, an initial Ultimate Rose pilot window was manufactured by Roseview and installed into the rear of the property by the owner's chosen installer.

# CASE STUDY OVERVIEW

## SOLUTION & FINAL OUTCOME

The pilot window was to their timber originals. Immediately the authenticity was apparent, and as a result the homeowner proceeded to replace all the original windows with Rose Collection Ultimate Rose timber alternative sash windows.
