CASE STUDY OVERVIEW

PROJECT SCOPE

This imposing Victorian semi-detached villa required complete refurbishment, both inside and out. As well as brick-cleaning and repointing, stonework repair and new fascias, an important part of the project involved replacing the traditional box sash windows with modern, energy efficient, secure alternatives

PRODUCT SPECIFIED & INSTALLED

The property is located in a conservation area, meaning that accurate, authentic, traditional replacements were absolutely essential. The owners spent several months researching the options and alternatives, before settling on Ultimate Rose as the most authentic sash window available on the market. The resulting windows property's character. As

a semi-detached home the adjacent property still had its original timber box sashes in place, providing a direct comparison. were designed in the classic Victorian style, in keeping with the property's character. As a semi-detached home the adjacent property still had its original timber box sashes in place,

CASE STUDY OVERVIEW

SOLUTION & FINAL OUTCOME

The result is clear – the replacement windows provide a direct, accurate and authentic alternative, while benefiting from a host of modern thermal, acoustic and security improvements.
